

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 41.

BLAIRMORE, ALBERTA, THURSDAY, OCTOBER 11, 1923.

\$2.00 YEARLY

CONTRACT LET FOR NEW BELLEVUE ARENA

The contract for the new Bellevue hockey and curling rink was let on Tuesday, our local builder and contractor, E. J. Pozzi, being the successful bidder.

The new arena will be along similar lines to the Blairmore arena, with exception that steel trusses will be used instead of wood.

Work on the new building will commence at once, in the hope of having it completed for the opening of the skating and hockey season.

CONTRACT LET FOR SUPPLYING SCHOOL COAL

Several tenders were received by the school board for the delivery of 90 tons of coal to the central school and thirty tons to the West Ward school. S. Ennis was the successful tenderer, his figure for haulage being at the rate of 75 cents per ton.

CAN YOU FIGURE THE VALUE OF A MARK?

Fifty million German marks changed hands in Blairmore last week for a dollar and a half of Canadian currency.

COLEMAN HOCKEY CLUB REORGANIZED

At a large and enthusiastic meeting at Coleman on Wednesday evening of last week, the officers for the coming 1923-24 season were elected. Rev. Father McCormick was the unanimous choice as president. Other officers are:

Vice-President—W.L. Rippon, manager of the Canadian Bank of Commerce;

Secretary-Treasurer—Walter Purvis, re-elected.

Executive—Messrs J. Scott, Francis McLeod, T. Clark and Bob Eastwood.

The financial statement for the past showed the club to be in good shape, and the best year in the history of Coleman is looked forward to.

W. Purvis was chosen to represent the Club at the league meeting to be held in Calgary shortly. He will be accompanied by Mr. W. Bell.

A motion affecting all amateurs was unanimously passed, as follows:

"That the players be reimbursed for working time lost in playing games."

The approval of the parent body will be sought in this connection. It seemed to the meeting unfair to expect the boys who give the public so much pleasure to be out of pocket in doing so. Ontario is asking for the same privilege.

Mrs. Coates and Miss Irene, of Cowley, were visitors here on Monday.

CEMOCRICAL OMAR KHAYYAM TEMPLE, NO. 141

Knights of Pythias Hall, Coleman, Wednesday Evening, October 17, at 8 o'clock Sharp

To all Votaries—Fall me not, ye Votaries. Many moons have passed since the Divan has "Sat for Judgment." Many strangers are reported as being curious as to our mysteries, and the camels are sniffing the air, indicating that Tyros are near at hand. Therefore, I, as your Royal Vizier, command all the faithful followers of this Temple and visiting Votaries, to assist in bringing before the Divan all who do not wear a smile. See that they are "Knights Without Fear," and that they carry the passport of their intentions.

Ye faithful ones, lest I be angry, heed ye when the Caravan starts on the pilgrimage to scatter seeds of Kindness, to do good to the thirsty and hungry multitudes, with a trip to the Fountain of Perpetual Youth. This is the time to enjoy yourself and forget the follies of the outer world.

Fall me not at the time and place.

I have ordered it

Duncan A. McArthur, Royal Vizier.

It's a go,

J. T. Griffiths, D.D.G.C.

To all Knights—The Dokey process of evolution has the cocoon and the Butterfly gag all beat to smithereens. First, a man, then a Kay-Pee, then a tyro, then a Dokey—Then you are "IT". The price is \$25.00 all found.

If you are not satisfied when you get through you can get more until you are. We guarantee satisfaction and if you don't have a GOOD TIME, it's your own fault.

Early applications will be placed on the preferred list. See D.D.G.C. J. T. Griffiths, for full particulars and then present yourself at the K. P. Hall, Coleman, Wednesday, October 17, 1923, at 8 p.m.

Bellevue Branch and Safety Deposit Boxes

Hillcrest, Sub to Bellevue.

NEW VICTORIA BRIDGE IS COMPLETED

The L. O. D. E. will hold their first monthly meeting of the coming season at the Greenhill Hotel on Tuesday evening next at 7.30 sharp. All members are requested to attend and also make a special effort to be there in time to start the meeting at the above mentioned time.

The bridge replaces the cement structure erected by the provincial government last year, which, for want of a firm foundation and wings, fell victim to the spring floods. The new structure has cement piers of sufficient depth in the ground to ensure its standing against the treacherous elements of Lyon Creek. With cement abutments, steel girders and wood top, together with a reinforced concrete sidewalk of fifteen feet in width, the contract has been completed and the contractor paid. It is understood that the provincial government will assist to the extent of \$1500.00.

Arthur H. Evans, better known as "Slim" Evans, was arrested at Bremeron, Washington, last week, charged with embezzlement of about \$2550 of the funds of Drumheller Local Union, U.M.W. of A. Evans disappeared from Drumheller last year, and immediately upon his successor taking office the shortage in funds was discovered. Evans was brought back to Calgary and this week faces the charge of theft.

Mitchel's protest against the Calgary Callies, regarding the playing of Bernie Cartwright and Johnny Wright, was not sustained by the Alberta Football Association.

Success Begins With Saving

A Savings Account with the Union Bank of Canada will give you the right start.

By systematic saving you can lay the foundation of future success.

Do not wait until you have \$25.00 or \$50.00. A Savings Account can be opened with \$1.00.

Good Heaters Make Warm Friends

Here are three reasons why you should prefer the McLARY VERY HOT BLASTS:

They have the appearance.
They are clean to operate.
They are exceedingly well adapted to our local coals.

Small Size \$32.50. Medium Size \$37.50.
Large Size \$42.50.

We also have a full stock of Quebec Heaters with roller grates at \$25.00, \$30.00 and \$35.00.

We have a new shipment of bolt action Shot Guns and also Super-X Shells in.

Blairmore Hardware Co.

OUR policy is to build up a sound product, sell at a low margin of profit and tell the truth about it. Goods returnable and money cheerfully refunded if you are dissatisfied.

Resignations Of Two American Ambassadors Have Been Accepted

Washington.—The resignations of United States Ambassador Harvey at London and Child at Rome, submitted for private reasons, and under agreement reached with the Harding administration, have been accepted, marking the first change in the United States diplomatic service since President Coolidge took office.

Ambassador Harvey will quit his post at the end of the year. An ambassador who has either left or is about to leave Russia for the United States, will not be back. None of the United States ambassadors or ministers, the state department said, in making the announcement, has any similar agreement limiting his term of service so far as known.

The only explanation of the resignations given in official quarters was that in both cases the ambassadors had a few months ago reached agreements with President Harding as to the length of time they would continue at their posts, in both cases there have been intimations, however, that the ambassadors were finding their position unduly burdensome in a financial way and that they felt they must give attention to their personal affairs.

There was no official word available as to successors, President Coolidge might send to the posts.

Will Probe Airplane Crash

Royal Air Force Asks for Details of Regina Accident

Regina.—Preliminary steps toward an inquiry into the airplane accident, in which Harry Doucette, Windthorst farmer, was seriously injured, near the Lakeview aerodrome, September 27, have been taken by headquarters of the Royal Canadian Air Force, Ottawa. A request for details as to the registered number of the machine, Doucette's flying record and of officers available here for a court of inquiry has been received by Capt. T. H. Spence, secretary of the Regina Aero Club. The required data has been awarded.

Marks Sold As Waste Paper

Belgian Bank Acquired German Money in Business Transactions

London.—The National Bank of Belgium has just sold 362 tons of German marks, as waste paper, according to a Brussels dispatch to the Daily Express. Acquiring the money in business transactions with Germany, the bank found that the stacks of marks had filled all safes, and would need a new building to house them. The offer of a junk dealer who accepted the marks at usual waste paper rates was 100 per cent, more than their cash value at present.

Ireland Will Redeem Bonds

Dublin.—Definite announcement is made of the Irish Free State Government's intention to redeem the bonds issued in America and Ireland in support of the republican movement which led to the establishment of the Free State.

Report Upon Suspended Home Bank Causes Arrest of Officials

Toronto.—Dramatic developments followed fast upon the issuance of the official report of Curator A. B. Barker, chronicling the waste investments in hazardous enterprises that dragged the Home Bank of Canada down to ruin after a career of 13 years in the general banking business.

Dr. J. F. Daly, Vice-President E. P. Gough, and Directors F. J. B. Russell, Casey Wood, K. C., J. F. M. Stewart, all of Toronto, were arrested by provincial officers on charges of breaches of the Bank Act. O. G. Smith, chief accountant, and Auditor Sydney H. Jones were also taken into custody.

The charges upon which the group are held are three, all laid under the Bank Act, viz.:

Against Meers, Daly, Gough and O. G. Smith, it is charged that they did "negligently sign a false or deceptive

LEARN AUTO MECHANICS

W. M. D. 1423

statement respecting the return of the banks."

Against Meers, Barnard, Stewart, Russell, Col. F. C. Smith and Wood it is charged that they did, negligently approve or concur in a false or deceptive statement respecting the returns of the bank.

Against Mr. Jones, the auditor, it is charged that he did "negligently prepare a false or deceptive statement respecting the returns of the bank."

Premier Ferguson amplified somewhat the government attitude by the following statement: "The broad allegation which is the basis of the government's prosecution is that of fraud upon the public. The directors have apparently manipulated the books of the bank so as to mislead the public as to its solvency and induce them to continue to deposit their money, thereby committing a deliberate fraud. Moreover, to make matters worse, they have padded out their accounts to try to make it appear that they were justified in paying dividends when the dividends were actually being paid out of depositors' cash."

"The only way to secure a thorough and exhaustive investigation is by a cross-examination."

Severe Sentence For War Traitors

Deserter Recently Given Life Sentence By German Court

Leipzig.—Germany's highest court shows little mercy for men arraigned before it for treason in the great war.

Gerhard Strey was recently given a life sentence for having betrayed his command in March, 1916. The evidence showed that he deserted the German army and went over to the French. A short time later concentrated French artillery fire against the entrenchments where Strey had been serving showed that he had revealed all details of the positions to the enemy.

Strey, returned to Germany in 1920 and was sentenced to 15 years at Magdeburg, and charged with high treason, which he admitted. His defense was that he was badly treated by superiors and could not endure further military service.

The Soviet Government has demanded that the German Government demand the appointment of a mixed commission to investigate the assassination, punishment of the murderers in accordance with Russian law, as the commissioners were slain on Russian territory, and the deposit by Russia of 1,500,000 gold marks as a guarantee for compensation. Pending a settlement Russia has broken off her relations with Finland.

The Soviet Government holds Finland responsible for the reason that the assassins, according to Russian reports, came from Finland and returned to that country after the murders, which occurred about a mile within the Russian-Karelian frontier.

Five-Year Closed Season Proposed For B.C.

Victoria, B.C.—A five-year closed period on all fur-bearing animals in British Columbia probably will be approved by the Provincial Game Conservation Board shortly, to give the fur industry an opportunity to recover from the present depletion of these animals, M. B. Jackson, Chairman of the Board, announced.

"There is every prospect of a closed season on all fur-bearing animals in the entire province," Mr. Jackson said.

Trappers and fur traders agree that fur-bearing animals have been seriously depleted and that drastic measures are needed to prevent their extinction, he added.

Radio Figures in Arrest

Number of Stolen Cheques Broadcast From Cleveland

Montreal.—Radio was responsible for the arrest here of F. Lester Stowe, an employee of the Cunard Steamship Lines, who appeared in court charged with failure to pay a hotel bill.

Stowe is charged at Cleveland with theft of cheques totalling around \$1,500, and the numbers of these cheques were broadcast by the radio from that city. The radio of the hotel in which he was staying here got the serial numbers of the cheques, and when Stowe tried to settle his hotel bill with some of the cheques, charges were laid which will result in his deportation to Cleveland.

Took Drastic Action

Toronto Finance Commissioner Held Salary Cheques For Income Tax

Toronto.—Doliquity of a considerable number of well-paid city hall employees in the payment of their income tax led Finance Commissioner Ross a few days ago to take drastic action. He issued orders that the salary cheques of those who had not paid their taxes be held until the taxes were paid. There were many protests, but the commissioner stuck to his guns, and as a result there are now no arrears.

An aftermath of the situation is the passing of an order by the Board of Control that a list of taxes owing by civic employees be furnished to the board three times a year.

Sask. Deposits in Home Bank

Toronto.—The Saskatchewan branch of the suspended Home Bank, upon which the curator has just acted, together with their amount of total savings and current account deposits, follow:

Amulit	\$119,622
Bairum	28,050
Cahri	110,307
Khedive	46,162
Moose Jaw	243,376
Shackleton	30,604
Sintaluta	82,062
Tantallon	93,836
Weyburn	143,144
	97,196

To Briquet Char

Regina.—With a view of further testing the lignite fields at Bluffield, 150 tons of char will be shipped to Hebron, N.D., where it will be briquetted in Hood Odele ovens. The completed product will be returned to Saskatchewan and given a thorough test according to H. J. G. Gardner, Minister of Labor and Industries.

Drugs Smuggled in Bible

Montreal.—Customs officers have destroyed a quantity of narcotics in a Bible included among a consignment of books. The Bible had been hollowed out inside.

No Arrangement Yet For The Operation Of Alberta Wheat Pool

Selecting Horses For Royal Shows

Committee Busy Choosing Best Animals to Represent Saskatchewan

Regina.—Selection of horses to represent Saskatchewan at the Canadian Royal Show to be held at Toronto, November 20 to 28, and at the Chicago International Show to be held in the windy city December 1 to 8, is now proceeding.

The horse selection committee appointed by the Saskatchewan Livestock Board to assist the Provincial Department of Agriculture in the task of selecting the best horses to represent the province at these shows have already covered the northern half of the province and are now working in the south.

They inspected a number of Clydesdales belonging to R. H. Taber and James Dougans, of Condie; J. H. Pearce of Brora; Thos. Halpin of Craven; John Grills, of Silton; Archibald Forbes, of Grand Coulee, and several others.

The committee looked over a number of Clydesdales and Percherons in the Indian Head district, inspected Clydesdales, Percherons and Belgians belonging to, Dr. Chas. Head of Regina; J. and H. Darnagh, of Estlin.

The committee consists of Robert Thomas, of Grandbora, chairman; S. Haggerty, of Regina; John Martin, of Grand Coulee; Professor A. M. Shaw, of the University of Saskatchewan; and Dr. Chas. Head, of Regina, who is at present in Eastern Canada.

Resumes Excavations

London.—Howard Carter, Egyptologist, has left for Luxor and the Valley of the King's to resume his excavations at the tomb of King Tutankhamen. The scientist said he had not the slightest belief that any occult influence was responsible for the death of the Earl of Carnarvon, who died after discovering the tomb, and that he had no fears for himself in that direction.

Murderers Were 13 In Number

Brindisi.—The members of the international commission which investigated the recent killing of the Italian members of the Greco-Albanian frontier delimitation commission have returned here. It is said that the commission ascertained that the murderers of the Italians were 13 in number and that they were all armed with the same kind of rifles.

May Yet Visit Western Canada

New York.—Peter B. Kyne, novelist, who has been designated to manage the tour of David Lloyd George, announced that tentative plans had been made to extend the former British prime minister's itinerary to Western Canada.

Orders Ranch Paintings

Calgary.—Lord Renfrew has shown his appreciation of the beauties of Alberta by commissioning A. H. Kinsey, of the Stafford studios, Calgary, to paint several landscapes of the E. P. Ranch and the Highwood River, adjacent to the ranch.

Berlin.—Dr. Gustav Stresemann and the members of his ministry resigned from office and President Ebert then called upon the retiring chancellor to form a new cabinet.

The Stresemann Government retired from office with the relinquishment of its functions, and established the Ruhrland and the Rhineland as the only active accomplishment to its credit. While criticism of its usefulness in this score would seem to be not entirely fair, in view of the hopelessly tangled legacy assumed by it as the successor of the Cuno ministry, the Stresemann coalition, in its political

composition was such as to preclude, in the long run, any hope of productivity in the nature of financial and economic reforms on account of the conflicting currents which hampered its deliberations.

London.—Howard Carter, Egyptologist, has left for Luxor and the Valley of the King's to resume his excavations at the tomb of King Tutankhamen. The scientist said he had not the slightest belief that any occult influence was responsible for the death of the Earl of Carnarvon, who died after discovering the tomb, and that he had no fears for himself in that direction.

Hon. J. E. Brownlee, Attorney-General, and representatives of the Government on the wheat pool committee, is still in Winnipeg, presumably carrying on negotiations launched during the past couple of weeks by the committee for the management, financing and grain storage facilities of the proposed pool.

THE LATEST CRIME

Operating gambling devices that have been declared legal by the attorney-general's department of Alberta and licensed by that department to applicants, seems to be the latest crime.

These machines have been outlawed by every state in the American Union and no other province in Canada, save Alberta, has seen fit to entertain this great gambling educator.

Applications for licenses have been made to the department, in open faith, not with any idea of misrepresentation, and licenses have been regularly granted by the department upon payment of a fee of \$50. Because the machines were legalized by the province, the municipalities in turn felt obliged to collect a further municipal license tax, and so the public were given to understand that to all intents and purposes these machines were legal and safe to tamper with.

Now the attorney-general's department has undertaken to institute proceedings against the premises holding the machines and as a result a large number of parties through the province are placed in the awkward position of having to defend themselves for operating a legalized device. Already several operators of such machines have had to pay penalties and other cases are pending.

It has been said that the licenses were secured through a misrepresentation to the department by applicants. Be that as it may, but what right has the department to issue licenses without knowing the device they are licensing. It is claimed that the machines were intended to pay premiums in the shape of merchandise or tokens. Practically all of these machines pay cash and are built to receive cash and pay no other form of premium.

The cases involve questions of law, rather than facts.

TELL-TALE DISCLOSURES

From the fact that President Daly had over two thousand shares in the Home Bank we agreed that his personal interest in it would shield him from any charge of negligence in management. It also happens however that he was president of a pulp and paper company which secured a large loan from the bank. It has also transpired that during the past few months he had sold \$90,000 worth of his holdings through a Toronto broker. These disclosures should be sufficient to justify investigation and prosecution, says the Kincardine Review.

TO WELCOME CHANGES

A wedding used to be a terrible thing for a family of small means but large pretensions, says Forbes Magazine. In the strain to make a show such as custom demanded, the father of the bride not infrequently courted bankruptcy. It is different today. Now the young couple are likely to get married first, announce the fact by telegraph or telephone to their parents and relatives and next start off on a honeymoon automobile trip. Funerals too. The journey from the home of the departed to the cemetery used to be a very slow and solemn affair. To permit the horses to go faster than a walk was disrespectful to the dead. A funeral wasn't a real funeral if it didn't spoil an entire day for all concerned. Now a funeral, like most honeymoons, is largely an automobile trip. —Selah.

A peculiar test has just been made. Five Scotchmen were buried for five full days and yet came out alive. Looks as though the angeworm, the Scotchmen and the sel all the hardest creatures of God's creation to kill.

THEATRE TAX HIGHER

Amusement tax receipts are this year considerably in advance of last year. From January 1st to the end of September, 1922, the government's share of amusement revenues was \$126,771.78. This year the figures will be in the vicinity of \$143,500. For this period last year Calgary's returns were \$47,579.50, this year \$51,930, while Edmonton was a close second in each instance with \$36,444.10 in 1922 and \$49,008.80 this year. The total revenue to the government from this tax in 1922 was \$189,933.61.

ANOTHER BURNT OFFERING BEFOR THE INCOME TAX IDOL

If, as rumor indicates, the Finance Department at Ottawa goes ahead with its wild idea of amending mercantile law so that income tax will take precedence over mortgages as a liability, the very fundamentals of business practice will be thrown into chaos.

Canada's whole land system rests on the sanctity and security of the mortgage obligation. If the government is allowed to place taxes on mortgages, our whole machinery of mortgages, loans and guarantees will be dislocated and our entire system of land titles rendered insecure.

Moreover, such a step would have far-reaching and disastrous effects in the financial life of the country. There is more than half a billion dollars invested in Canada in first mortgages. These, which are first-class investments under existing law, will automatically become second-class investments should Ottawa carry through this preposterous suggestion.

Every effort should be brought to bear on the Finance Department to kill the insane proposal before it is even generally considered. —Vancouver Sun.

CANADA AS THE STATES SEE HER

The following editorial was contained in a recent issue of The Referee, edited by Bert E. Collyer:

"While we realize that the people of Canada would not regard exaggerated flattery in the light of a compliment, we believe we remain within the confines of simple truth when we remark that no nation in history has met the financial demands of war with greater good spirit and carried the financial burdens with greater intelligence than the vast Dominion that tops the North American continent. Ten years ago Canada's debt was less than \$350,000,000. On January 1, 1923, it was \$2,516,929,000—over two billion dollars added by the war. Were it not for the fact that the bulk of this colossal debt is owed within the Dominion—Canadians themselves owing bonds to the extent of \$1,969,995,00—the interest payments would doubtless drain the country dry, reduce the exchange value of the Canadian dollar to a ruinous figure and plunge Canadian finance and business into a chaotic condition. As it is, the semi-annual interest payments go into hundreds of thousands of Canadian homes, and provide money for the payment of the Federal taxes from which the interest payments are drawn. At the time Canada might have met the enormous demands of the war by borrowing from New York, but the wisdom, as well as the patriotism, in resisting the temptation and instead placing the burden immediately upon the shoulders of her own people is now apparent. Within a few weeks \$172,000,000 in Dominion Government bonds will fall due. With the same spirit and intelligence, the government is again co-operating with bankers and brokers to keep the debt in Canada. The prospect that practically the entire amount will be replaced by money advanced by Canadian investors is pleasing to the friends of plucky Canada the world over."

FIRE PREVENTION WEEK

This is fire prevention week, and in this connection Fire Chief Mc Dougall asks co-operation in effort to reduce fires to a minimum. The following hints and don'ts are suggested:

Think fire before it happens. Teach your children and yourself the danger of fire.

Use safety matches. Watch the careless smoker and don't let him impose upon you.

Keep your premises clean and tell your neighbor to do the same.

When in doubt, call the chief of the fire department. He knows.

Don't leave everything to the landlord. Inspect your own premises from cellar to garret.

Don't throw away lighted matches, cigars or cigarettes.

Don't use coal oil, benzine or naptha in lighting fires or to quicken a slow fire. It may result in death.

Don't use gasoline or benzine to clean clothing near an open flame, light or fire.

Don't burn in dark closets or under the bed with lighted matches or candles. Use an electric torch.

Don't put ash in a wooden receptacle alongside of the house. It is better to put them in a metal receptacle some distance from the house.

Don't leave matches carelessly around the house and within easy reach of children. Keep them in a metal box.

Don't put on a big fire, now that the evenings are becoming cold, and go to the movies or elsewhere. You might have to ask friends to look after you for a few days.

Don't go out of the house without first seeing that all inside doors are closed but not locked. In case of fire this prevents the immediate spread from room to room.

Don't get excited when you see a fire, go to the nearest telephone and turn in the alarm of fire, stating the "exact" whereabouts of the fire.

Don't crowd around the scene of a fire. Better to stand on the farthest side of the street from the fire, so that the firemen can have ample room to lay hose and get about their work unhampered.

The fire chief expects the co-operation of all citizens to keep the fire risk down to a minimum, and at fire to give him all the help that he requires of them.

THE INTERNATIONAL HAY AND GRAIN SHOW

The International hay and grain show which is held annually in conjunction with the International Livestock Show, is perhaps the largest show of this kind, at least the largest in America.

Western Canada, but more particularly Alberta, produces the finest quality of seed grain to the north of the continent. To substantiate this statement, one has only to look up the record of past awards at this show, to find the names of many Alberta growers.

The department of agriculture has divided the province into three divisions for the convenience of the growers, with Claresholm school of agriculture to serve as a collecting depot for exhibits in the southern part of the province, while the University of Alberta and the Olds school will function for the central and northern part.

The exhibition is held from Dec. 1 to Dec. 8, but all entries must be made by mail and be in the hands of the Superintendent of Entries, Hay and Grain Show, Chicago, U.S.A., while exhibits must reach the grounds not later than Monday, Nov. 26th. No entry fee is charged, but exhibitors are only allowed to enter one sample in any class, but he may enter in as many classes as he may desire.

While the greater care is necessary in selecting and cleaning and picking a sample for exhibition, scouring, bleaching or clipping so that the endosperm is exposed will disqualify a sample at the discretion of the judges.

All exhibits of wheat, oats, barley, rye, field peas and field beans must consist of one peck, while of clovers

BLAIRMORE ALBERTA

and Alfalfa only four quarts will be required. All samples must be mowed.

All exhibits should reach the Clarendon school of agriculture not later than November 15th, to be shipped to the exposition, while the entries should be sent direct. In shipping use double sacks to insure sample from damage or loss.

From 25 to 35 prizes are offered in each class for grains—15 prizes for small seeds as well as trophies and ribbons as specials for each class.

If any further information or prize lists are required, communicate with the School of Agriculture, Clarendon, Alta.

HILLCREST HAPPENINGS

(By Our Own Dear Felix)

Mrs. Isaacs Daniels and children arrived home on Thursday morning. No more batching for Isaacs.

Turtle Mountain Lodge No. 15, K. P. of P., expect to have their new hall, next to P. Byrne's store, ready for lodge purposes next meeting.

The whilst drive and dance given by the Pythian Sisters at the Union hall on Tuesday night last was a pronounced success. Sixteen tables were in operation. The prize winners were Mr. C. Carlson and Mrs. E. Jones. Mr. J. Edwards was awarded the booby. After the cards were cleared away, the rest of the evening was spent in dancing.

The concert given under the auspices of the Methodist church for the purpose of clearing off the debt on the manse, took place in Cole's open house, kindly loaned by Mr. Cole. A crowded house greeted the performers. Hillcrest Amateur Orchestra opened the concert with a fine performance of the overture "William Tell," followed by the concert waltz "Falling Leaves." The following guitars took part, Mr. T. Johnson, guitars of Coleman, gold medalist of London and Manchester; Mrs. Jones, soprano, of Belgrave, a pleasing vocalist; Messrs. McMurdo and Taysom, of Pincher Creek, whose duets and jokes brought down the house time after time. Mrs. Jones acted in a very efficient manner as accompanist. During the interval the orchestra played several pieces under the able leadership of Mr. G. Miller.

About fifteen members of Crowview Rebekah Lodge, and a larger number from Bellevue, journeyed to Pincher Creek on Tuesday, where they were guests of the Pincher Creek Rebekahs. The beautiful Rebekah Degree was put on for their entertainment, followed by cards and a sumptuous spread, after which speeches and songs were the order for over an hour, followed by dancing.

You can estimate the size of a town by the size of the golf score required to cause swelling.

GREETINGS

THE ENTERPRISE HAS JUST OPENED THE 1923 SERIES OF
CHRISTMAS AND
NEW YEAR
GREETING CARDS

WE REPRESENT THE LARGEST AND BEST HOUSES IN CANADA.

CALL AND SEE SAMPLES EARLY.

WHAT TWO DOLLARS WILL BUY

In each of its many departments, catering to all classes and all ages, the Family Herald and Weekly Star, of Montreal, has continued to improve each year over the year, until now it can sure be perfection were reached. Yet for the coming season that remarkable family and farm paper will surely be fulfilling still further improvements in all departments. It is a profound mystery to publishers, and over the years the Family Herald and Weekly Star can continue to publish a 72-page weekly paper containing such a wealth and variety of material for a sub-scriber's price of only \$2.00 per annum.

If this was not enough, we hear that added to the amazing value of the paper itself, each subscriber this season will receive a gift which is a most beautiful picture in colors of a lovely and heroic woman, whose remarkable life story has been published in the paper, and can be obtained from the Family Herald and Weekly Star, Montreal.

"HOWLERS"

Noah's Ark was made of wood, but Joan of Arc was made of Orleans. A grass widow is the wife of a dead vegetarian.

Psyche was a black boxer who fought Carpenter.

A circle is a round straight line with a hole in the middle.

Bacchus first taught the Greeks to get drunk, and Raleigh named tobacco after him in honor of the Virgin Queen.

The capital of Norway is Christian-

Guy's hospital was built to com-

memorate the Gunpowder Plot.

Oceania is that continent which

contains no land.

THEY COMPROMISED

Rural Magistrate—I'll have to fine you a dollar, Jeff.

Jeff—I'll have to borrow it of you.

Judge—Great snakes! It was only to get the dollar that I was fining you. Git out! You ain't guilty any way.

SELECT YOUR COLOR

A little girl timidly asked the drug clerk for a package of pink dye.

"What do you want it for?" responded the clerk. "Woolen or cot-ton goods."

"Neither," said the child. "It's for my stomach. The doctor said she'd have to die, and she wants it a pretty color."

After counting all the hairs on the heads of the students two Munich professors discovered that men have from 40,000 to 50,000 hairs on their heads, while women have from 60,000 to 70,000. We believe that the average would be much less in Blairmore, due perhaps to the fact that we are higher up in the elements.

WHAT MAN WANTS

"Man wants but little here below, Nor wants that little long." Who wrote that I should like to know. He seems to have been wrong.

Man, I have generally found, Whatever is his store, Is all the time just looking round To get a little more.

Our appetites for gold and fame Are never satisfied, With flattery it's just the same, Our mouths are opened wide.

Of knowledge we can't get enough, It's nothing to deplore, But wanting little! That's the stuff, We want a little more.

The wedge of pumpkin pie The early morning doze, The winter furnace coal supply, The gift a friend bestows.

The sunshine we so often miss, The music we adore, The maiden's shy and conscious kiss, We want a little more.

The local lodge of Pythian Sisters will hold a whist drive on the night of Friday, October 19th.

Coleman's football stars visited Michel on Sunday last and played their regular league game. Michel scored first and then Coleman scored the wind-causing the ball to swerve into the net. The game ended 2-2. Michel has now won the Crows' Nest League championship title for three years in succession.

The first degree was conferred at the regular meeting of Blairmore I.O.O.F. Lodge on Tuesday night by Blairmore and Coleman lodges. On Monday night next the local Oddfellow's will journey to Coleman to witness the second degree, being conferred by that lodge. All members are requested to be at the Blairmore hall about seven o'clock for the trip to Coleman.

Recently the police guarding the town of Coleman from the possible invasion of boozes had occasion to turn their efforts to another direction. A passing car took fire and through the prodding and willingness of the man in charge of the booze gate the car was saved from destruction. But very slight damage resulted and the owner of car speaks highly of the good turn done by McIlroy.

Miss W. J. Brown left on Tuesday night for Strathmore, where she accepts a position in the Strathmore branch of the Union Bank of Canada. Miss Brown has served faithfully at the local branch for the past couple of years. We understand that the vacancy caused here by Miss Brown's transfer will be filled by Miss Alice Carter, late of the local branch of the Home Bank.

DISTRICT COURT

At the sitting of the District Court here last week the following cases were dealt with before Judge McDonald: Marinaro versus Olivia, Barlass versus Blundstone, Kucher versus Blindstone, Bergstrom versus Danyah, The King versus Eddy, Gillis versus Geakas, Murray versus Bianchi, Ferty versus Pawlick, Borzan versus Laplaca, Gillis versus Missolotti, Farley versus McClaine, Redmond versus Cockburn, Rex versus Taborski, Rex versus L. G. Freeman.

In the case of the latter, charged with perjury, Freeman was acquitted. J. D. Matheson acted as crown prosecutor. L. H. Putnam for the defense.

Taborski appealed from conviction handed down by Magistrate Gresham, who found him guilty of operating a car while intoxicated. Taborski was defended by Mr. Putnam and the magistrate's conviction was quashed.

Gillis & Mackenzie represented plaintiffs in six cases, L. H. Putnam five, McDonald & Co. one, and Ford & Co. one.

The following applications for naturalization were made: Tony Vejprna, John Paul, Efin Hulka, William Gresner, Antony Stipak, Tony Rota, Karl Wolney, Adolphe Panquin J. Nahrinak, Q. Copik, Angelo Bossetti, P. Pearoli, Angelo Coop, Alfrid Balesse.

Mr. and Mrs. D. F. Fleming are spending a few days in Lethbridge, going down on this morning's local, going down on this morning's local, going down on this morning's local.

It is expected that the new Blairmore garage will be ready for opening by October 26th.

David Lloyd George has been obliged to cut down his speech-making itinerary owing to threatening ill health.

It is rumored that the foundation of the old Wheeler-Farmer building at Bellevue has been sold and that the new owner, Mr. C. Emmerson, intends erecting thereon a large fire-proof building to be used as a hardware store.

In long distance telephoning the speaker's lips should almost touch the transmitter. Every half-inch the lips are away from the transmitter lessens the effectiveness of speech by about twenty miles.

Invisible Bell Wiring is a recent British contribution to the electrical field. It consists of two flat copper strips securely held between two paper tapes, which can be easily installed by glue, paste or cement. The invisible bell wire can be fixed on walls under wall paper or ceilings under white wash, or on floors under carpet or linoleum. When run on the surface it can be painted or colored to match its surroundings and is then perfectly invisible.

A HARD TIME ARGUMENT

A farmer, living not far from here, called at this office the other day and assured us that the following conversation took place down near his place between a deflated farmer and his financier:

"Morning, Ole, your note has been placed in my hands for collection."

"Well, I guess you have got your hands full."

"Now, Ole, this account has been running for years."

"Ay should worry, if it can't run, let it walk."

"I called to have it settled."

"I am willing to call it settled."

"Where is the bull we had the mortgage on?"

"Bull got sick and went capute."

"Now, Ole, we are in need of this money."

"No fooling, we expect you to pay in full."

"I will be full when I pay it."

"Ole, I'm going to bring the sheriff to see papers on you."

"Guide for you: ay get nothing paper. If you think of it bring also a box of snuff too."

In the case of the City of Lethbridge versus the Canadian Western Natural Gas Company, the appeal has been dismissed by the Supreme Court of Canada. The result is that the gas franchise does not force the company to supply gas to Lethbridge. The judgment at Ottawa may be considered a win for the gas company.

That vibrations can destroy the pain of dental operations is the assertion of Dr. Plueger, of Los Angeles. Vibrant energy is taken from the ether by an instrument similar to that used in wireless and transmitted through the patient's body by means of special harness.

Yes, sir, we honestly believe the police are neglectful in their duty, for we noticed a woman on the street the other day laughing out loud. It is time the lawmakers of Alberta got busy to create some legislation to put a stop to such a crime. Ha ha!

It is reported that the biggest newspaper consolidation in the history of the English press has been accomplished by the purchase by Lord Rothmore of the entire Hull press. The firm owns the Sketch and Evening Standard in London, three dailies in Manchester, three Sunday papers and about forty weeklies and monthlies. The prices mentioned vary from \$15,750,000 to \$22,000,000.

The Calgary Board of Trade will run a special excursion to this district making Blairmore the principal stopping point, on October 19th.

A decision affecting the legal profession has been handed down by the British Columbia Court of Appeal in the case of Gow versus MacInnes and Arnold. The court decided that if a British Columbia solicitor retains a solicitor of another province to perform professional work for a British Columbia client, the solicitor and not the client is responsible for the fees of the outside solicitor.

In the case before their lordships, Walter D. Gow, a Calgary lawyer, was instructed by MacInnes and Arnold to commence proceedings in Alberta on behalf of Mrs. L. N. Arnold, who was their client. Mr. Gow's bill was contested by the local solicitors on the ground that they were only agents in the matter for their client, Mrs. L. N. Arnold.

The action came before Judge Ruggles, who gave judgment in Mr. Gow's favor for the full amount.

From this judgment Messrs. MacInnes and Arnold appealed and the Court of Appeal, Mr. Justice Martin dissenting, has upheld the judgment of Judge Ruggles.

E. C. Mayes argued the appeal for MacInnes and Arnold, and G. L. Fraser for Mr. Gow.

Joseph Kneip, for a long time cutter in the Union Meat Market here, leaves shortly for Michel, where he will conduct a branch store.

A girl in Vancouver has married a man named Physick. We understand she had been looking for something like that for ten years till the dove arrived.

No less than four convictions have been secured by our town police during the week for infractions of the Liquor Act. Penalties of \$100 and upwards were meted out in each case.

Tom Richardson, ex-British M. P., will address a meeting in the Oddfellows' hall on Monday evening next, at 8 o'clock, on the subject of "Prohibition."

Inspector J. A. Smith met the members of the school board on Wednesday night when matters of general interest to the high school were discussed.

In order to increase business for the occultist, it is desired that skirts shall be even shorter in future. Skirt factories will soon have to confine their attention to waistbands only.

Over in Germany one has to work a whole year to earn a pair of shoes, and ten years to earn a suit of clothes. At that rate, Berlin and a suit of clothes will shortly be the birthplace of abradited dress.

Mrs. T. Clark, of Coleman, who is convalescing from the effects of a recent operation for appendicitis, is spending a few days at the home of her parents here, Mr. and Mrs. S. Ennis.

A little school boy was asked the other day what the new inch-by-inch pegs meant along the roadside. He was told they were placed there by the government to keep the road from slipping sideways.

At the advanced age of 94 years and four months, Rev. Edward Cragg, for many years prominent Calgary Methodist minister died at his residence, Calgary, yesterday. He is survived by his widow, who is nearly 86, and seven children.

A commercial traveller by the name of E. S. Bishop was in The Pass last week and was in the uncomfortable position of being looked upon by most everyone as the commission of the now very much famous Alberta Liquor Act. Much as the fellow longed for a drink, no one would venture to offer him one.

An extra bridge gang camped at Rock Creek yesterday, where work on the erection of the new steel bridge will begin at once. The span will bridge the creek about fifty yards south of the present bridge, at a point where cliffs stand perpendicular on either side to a height of about sixty feet above the creek and about fifty feet apart, forming a natural abutment at either end of the span and affording level approaches.

A report from Toronto states that all doubt as to whether the Vaudreuil, one of the two vessels owned by the British Dominion Holding and Investment Corporation Ltd., the stock of which is owned in turn by the Home Bank, was engaged in rum-running, seems to be cleared away. The Vaudreuil is a tidy ocean-going tramp of 2514 tons, and was in the rum fleet that cruised off New York on January 17th last.

Associating itself with the efforts of the League of Nations, the international Masonic conference adopted resolutions exhorting the members of Free Masonry the world over to oppose the spirit of belligerency still manifest in many countries and to strive to insure respect for international engagements.

Mrs. A. F. Shering gave a tea at her home at Frank last evening, proceeds of which were for church funds.

A little school boy observed Charlie Chestnut moving down the street on Tuesday morning with his head and neck bandaged with a few yards of cotton. "Gee," he remarked, "the doctor must have had bandages prepared for several small accident."

Our idea, judging from the Monday morning newspaper, is that if you don't get drowned while bathing on Sunday you get killed in an automobile at a railway crossing. Maybe, after all, it's safer to go to church.

A local guy thought he was running something clever a few days ago, when he produced a 1000-mark German gold coin to pay for some goods purchased. He was surprised, however, to find that the storekeeper could hand out fifteen million marks in paper exchange.

Dame Clara Butt and Madame Melba are both to sing in Calgary on October 31st.

Here and There

The total quantity of silk flannel produced on both the Atlantic and the Pacific coasts during the month of July was \$29,043,000, valued at \$2,714,440 for the fisherman, compared with a catch of \$2,628,250 in July, 1922.

Cattle in north Alberta's livestock herd now number more than 3,000,000. The swine and hog swine industry have increased amazingly in the northern part of the Province in the last few years.

Carrying large consignments from the Dominion Government and the British Columbia branch of the Canadian Pacific Railways, the Canadian Pacific S.S. B. C. F. is the first ship from the American continent to arrive with relief for the earthquake and famine stricken people of Japan.

Nearly \$10,000 in fur royalties was collected in The Pass, Man., by the chief game warden of the Province. This does not include the royalties collected from the Hudson Bay Company and Revillon Freres, which will be more than double this amount. This does not include the royalties received through taxes, licenses and other sources of revenue.

Creamery butter made in Alberta took a total of 149 prizes out of 236 prizes offered, or 63 per cent, at exhibitions at Edmonton, Calgary, Regina, Moose Jaw, Saskatoon and Vancouver this year. Out of the 100 butter championships offered, Alberta butter took 8. In the Calgary exhibition six provinces competed, in three others four provinces competed, and in two others three provinces competed.

British Columbia has reached the peak of the biggest tourist season in her history, and it is estimated that as a result of the enormous expenditure of tourists while in the province this summer, will be worth at least \$60,000,000. The opening of the Banff-Windermere motor highway through the Rockies is a very important factor responsible for this increase in tourist traffic through the Pacific province.

Gold producers in the Province of Ontario during the first six months of 1923 report production of 384,000 ounces of gold, or 65 per cent, silver, silver in a total value of \$7,244,000, shipped by the Porcupine producers, and from the Kirkland Lake producers 1,000,000 ounces of gold and 6,515,000 ounces of silver, a total value of \$4,022,873, or two and a half times the total value of \$8,946,954.

The Canadian Pacific Railway will contribute \$25,000 for the relief of the sufferers in Japan and have also decided that supplies of Canadian foodstuffs will be sent to the stricken districts, or purchased with money raised for relief work, will be transported free over the Company's rail and steamship lines. The Company has already made this arrangement while making a tour of the Company's lines in the West with a party of directors. He added that this action had been taken in view of the intense hardships due to the disaster, and notwithstanding the fact that the Company had lost heavily by the catastrophe.

The following editorial recently appeared in the Windsor "Border Star": A recent case of silk, on route from China to New York, was shipped via Vancouver and the Canadian Pacific Railroad and crossed the North Pacific to Ogdensburg, New York, in 100 days, and then across the United States to San Francisco. The incident offers something for Canadians to think about. It shows what a splendid service the Canadian Pacific offers in rail and steamship lines. In a country like Canada, transportation is all important, and the way the Canadian Pacific has come out in view of the business difficulties which began with the war and are not yet smoothed out is a credit to the railroad which comes out in the best light.

Again, the incident calls attention to Canada's splendid gateway to the East. Although China is in a chaotic political condition, just now, the huge Oriental nation offers wonderful trade chances in the future. No nation is better placed for getting its share of this business than Canada.

Solving Farm Problems

Field Husbandry Experiments Being Conducted at Swift Current

Many and varied are the field husbandry experiments being conducted at the Swift Current, Sask., Dominion Experimental Station, designed, as the annual report of the superintendent says, to secure information on a number of important farm problems of special concern to the section of country in which the station is situated. The problems being studied are defined in the report, which can be secured from the superintendent, or by addressing the Publication Branch, Ottawa, Ontario.

Soil cultivation for cereals, and methods of seedling including methods of summerfallow, stubble treatment, the use of packers, and comparative values of different types of seed drills.

Methods of harvesting cereals; the comparison of the combine with methods in common use.

Crop rotations designed to lessen the danger of complete failure and to prevent soil drifting and depletion of the organic matter of the soil, are being compared with straight grain growing rotations, particularly with a view to ascertain which the introduction of other crops will make it possible for farmers to maintain yields at a reasonable level.

The efforts of farmers in the South-western Saskatchewan to grow grasses have not been particularly successful, and it is hoped that the experiments in the seeding of grasses and clovers being conducted at the station will determine whether failures have been due to faulty methods of culture, unusually dry seasons, or whether, as some claim, the country is not adapted to the production of tame grasses.

Winter rye being an autumn-grown crop, requires different preparation, and must occupy a different place in the rotation from spring-grown cereals; consequently experiments to determine the best place in the rotation and the best cultural treatment for this crop have been started.

Methods of cultivation for corn, sunflowers and other intercrops and the influence of these crops on succeeding crops, are being studied by means of a series of suitable experiments.

Progress in the foregoing, and in other matters, is detailed in the report.

Says Medicine Does Not Cure

Drugless Physician Claims It Only Relieves the Ailment

"The use of medicine is degrading and vaccination or injection of serums of any description is a menace to civilization," stated Dr. Benedict Lust of New York, President of the American Naturopathic Association, who arrived in London, Ont., to attend the annual convention of the Drugless Physicians of Canada and incidentally to pave the way for affiliation of the latter body with the American Association.

Vaccination was dangerous to the health of the nation. In tracing the origin of cancer, infantile paralysis, epilepsy, rheumatism, and other diseases, it had been found that vaccination was the cause. The injection of serums in the blood of soldiers had left a countless army of units behind, he said.

"Medicine does not restore health," he contended, "nor does it give health. It only serves to relieve the ailment for a while, but does not remove the cause."

Alberta Eggs to the Fore

Increase in Egg and Poultry Handled Through Co-operative Marketing Service

A big growth in eggs and poultry handled through the co-operative marketing service of the Alberta Department of Agriculture, is shown in the figures for the six months of the year. To date a total of 398,120 dozen eggs have been handled, compared with 435,000 dozen for the whole of last year. About four carloads of live poultry have already been handled.

Canada's Best Market

This country provides Canada with the best market in the world; and we gratefully acknowledge the measure of reciprocity Great Britain receives from Canada. The British market can take, with a preference of flour over American wheat in the berry, the whole of the wheat Canada can grow for many years to come; together with meat, fruit, and all other foodstuffs and raw materials.—London Morning Post.

At the Charity Fete

The Waite—Did you have a vanilla or a strawberry ice cream, madam?

The Girl—It tasted like glue.

"Ah! Then it was strawberry. The vanilla tastes like paste."—London Opinion.

The Trail of the Comet

Astronomers Are Watching For Two Vagrant Speeders

Astronomers are on the watch for two comets, both discovered many decades ago, which, speeding over their rather uncertain courses through the skies, are about due for reappearance.

One of these interesting visitors is Dr. Vico's "long-period comet" of 1846, popularly known as the Mexican War comet because just on the outbreak of that conflict it was observed by Professor W. C. Bond, of the Harvard Observatory, on Feb. 26, 1846. Professor F. Di Vico, of Rome, also found the comet independently with his telescope, two days later, and because he officially recorded its coming, his fellow astronomers have given it his name.

Professor Di Vico observed his comet godson for two months, when it passed from view. It was reckoned that it would reappear in 75.71 years, with a "period of uncertainty" of three years. In 1919 it was within 300,000,000 miles of the earth, sometimes between the orbits of Mars and Jupiter, and the predictions of the skies decided that it might appear to them at any time between 1921 and 1925. When it does come, it will not be visible to "the man in the street," Harvard College Observatory officials say. Comets, they explain, may at any time be thrown completely out of their accustomed course by getting too near the sun or a planet, these bodies acting so as to give the stranger a sort of "kick" to one side or the other.

The second comet that astronomers are on the lookout for this year is that discovered by and named for D'Arrest, who saw it from Leipsig, June 27, 1851. It returned in 1857, 1870, 1877, 1890, 1897, and 1910. It was due in 1917 but the telescope failed to find it. Astronomical calculations show that it might be seen, the telescope being available on thirty dates of 1923, but the astronomers of the world who report their discoveries to the Harvard Observatory as a clearing-house of information, have not picked it up as yet.

It is the Harvard Observatory which is doing the calculations, and the second comet is due in 1925. The second comet, the second to be seen, is to be seen in 1925, the third to be seen in 1931, the fourth to be seen in 1937, the fifth to be seen in 1943, the sixth to be seen in 1949, the seventh to be seen in 1955, the eighth to be seen in 1961, the ninth to be seen in 1967, the tenth to be seen in 1973, the eleventh to be seen in 1979, the twelfth to be seen in 1985, the thirteenth to be seen in 1991, the fourteenth to be seen in 1997, the fifteenth to be seen in 2003, the sixteenth to be seen in 2009, the seventeenth to be seen in 2015, the eighteenth to be seen in 2021, the nineteenth to be seen in 2027, the twentieth to be seen in 2033, the twenty-first to be seen in 2039, the twenty-second to be seen in 2045, the twenty-third to be seen in 2051, the twenty-fourth to be seen in 2057, the twenty-fifth to be seen in 2063, the twenty-sixth to be seen in 2069, the twenty-seventh to be seen in 2075, the twenty-eighth to be seen in 2081, the twenty-ninth to be seen in 2087, the thirtieth to be seen in 2093, the thirty-first to be seen in 2099, the thirty-second to be seen in 2105, the thirty-third to be seen in 2111, the thirty-fourth to be seen in 2117, the thirty-fifth to be seen in 2123, the thirty-sixth to be seen in 2129, the thirty-seventh to be seen in 2135, the thirty-eighth to be seen in 2141, the thirty-ninth to be seen in 2147, the forty-first to be seen in 2153, the forty-second to be seen in 2159, the forty-third to be seen in 2165, the forty-fourth to be seen in 2171, the forty-fifth to be seen in 2177, the forty-sixth to be seen in 2183, the forty-seventh to be seen in 2189, the forty-eighth to be seen in 2195, the forty-ninth to be seen in 2201, the fifty-first to be seen in 2207, the fifty-second to be seen in 2213, the fifty-third to be seen in 2219, the fifty-fourth to be seen in 2225, the fifty-fifth to be seen in 2231, the fifty-sixth to be seen in 2237, the fifty-seventh to be seen in 2243, the fifty-eighth to be seen in 2249, the fifty-ninth to be seen in 2255, the sixty-first to be seen in 2261, the sixty-second to be seen in 2267, the sixty-third to be seen in 2273, the sixty-fourth to be seen in 2279, the sixty-fifth to be seen in 2285, the sixty-sixth to be seen in 2291, the sixty-seventh to be seen in 2297, the sixty-eighth to be seen in 2303, the sixty-ninth to be seen in 2309, the seventy-first to be seen in 2315, the seventy-second to be seen in 2321, the seventy-third to be seen in 2327, the seventy-fourth to be seen in 2333, the seventy-fifth to be seen in 2339, the seventy-sixth to be seen in 2345, the seventy-seventh to be seen in 2351, the seventy-eighth to be seen in 2357, the seventy-ninth to be seen in 2363, the eighty-first to be seen in 2369, the eighty-second to be seen in 2375, the eighty-third to be seen in 2381, the eighty-fourth to be seen in 2387, the eighty-fifth to be seen in 2393, the eighty-sixth to be seen in 2399, the eighty-seventh to be seen in 2405, the eighty-eighth to be seen in 2411, the eighty-ninth to be seen in 2417, the ninety-first to be seen in 2423, the ninety-second to be seen in 2429, the ninety-third to be seen in 2435, the ninety-fourth to be seen in 2441, the ninety-fifth to be seen in 2447, the ninety-sixth to be seen in 2453, the ninety-seventh to be seen in 2459, the ninety-eighth to be seen in 2465, the ninety-ninth to be seen in 2471, the one-hundred-first to be seen in 2477, the one-hundred-second to be seen in 2483, the one-hundred-third to be seen in 2489, the one-hundred-fourth to be seen in 2495, the one-hundred-fifth to be seen in 2501, the one-hundred-sixth to be seen in 2507, the one-hundred-seventh to be seen in 2513, the one-hundred-eighth to be seen in 2519, the one-hundred-ninth to be seen in 2525, the one-hundred-tenth to be seen in 2531, the one-hundred-eleventh to be seen in 2537, the one-hundred-twelfth to be seen in 2543, the one-hundred-thirteenth to be seen in 2549, the one-hundred-fourteenth to be seen in 2555, the one-hundred-fifteenth to be seen in 2561, the one-hundred-sixteenth to be seen in 2567, the one-hundred-seventeenth to be seen in 2573, the one-hundred-eighteenth to be seen in 2579, the one-hundred-nineteenth to be seen in 2585, the one-hundred-twentieth to be seen in 2591, the one-hundred-twenty-first to be seen in 2597, the one-hundred-twenty-second to be seen in 2603, the one-hundred-twenty-third to be seen in 2609, the one-hundred-twenty-fourth to be seen in 2615, the one-hundred-twenty-fifth to be seen in 2621, the one-hundred-twenty-sixth to be seen in 2627, the ROUND THE COUNTRY

Government Control in
British Columbia.

Opinion Given by the President of the
British Columbia Press Association
to the Independent.

The Independent, in following the plan of getting information on the
Government Control system from
provinces where it is in vogue, wrote
recently to Mr. L. J. Ball, manager of
the Vernon News, asking his candid
opinion of the system there. Mr. Ball

is an old-timer in Vernon, and has
managed the Vernon News, the oldest
Conservative weekly in the province
for 20 years. He is also president of
the British Columbia Press Association
and is particularly qualified to
give an honest and constructive opinion
of the B.C. method of dealing
with the liquor question. His reply is
given below:

Vernon, B.C.
September 23rd 1923

C. L. Willis, Esq.,
The Independent,
Stettler, Alberta.

Dear Sir:

I received your letter of recent date
re Government Control in British
Columbia, on which subject you wish
me to express an opinion.

Speaking personally, it does not
make much difference to me whether
there is Prohibition or not, for I do
not drink now, nor did I do so before
the general sale was prohibited and
then curtailed.

Looking at the matter in a general
way, however, I feel that the free
sale, as at one time was the case, will
never again be tolerated, and I would
oppose in every way its introduction.
The bars and saloons must be forever
banned. Total Prohibition could do no
harm to anyone if it could be enforced.
Liquor is not necessary to anyone, and
no one would suffer if the manufacture
were discontinued entirely. But it
can never be enforced. Certain
people will have liquor, and seem
determined to get it, and will move
heaven and earth to get something
with a "kick" in it.

In the old days, when liquor was
freely dispensed, — hotelmen with a
good bar trade made money, and
made lots of it. In fact many of them
did not pay much attention to the
balance of the house, and instead of con-
sidering the bar an adjunct, really
merely tolerated the general house as
a necessary attachment to enable
them to have a bar. In British Colum-
bia, since the Government operated
the distributing houses, there is a
certain restriction in the sale. It calls
for permits; such permits are limited,
both as to number and to whom they
are issued. The amount of liquor,
while in my mind rather liberal, is
nevertheless limited as to what
amount may be purchased within a
certain period, so that as far as is
possible it is supposed to represent
"moderation" in its use. Now those
who really feel they must have it, are
able to buy it, and get the real thing,
in sealed containers. Besides this,
whatever profits are made in the sale
of liquor are not controlled by a limit-
ed number of those in the business,
but come back to the people again
through government channels. It goes
to the support of hospitals, homes for
incurables, schools, etc., so that all
citizens profit in this manner from
such sales of liquor. While it may be
said that these institutions should not
profit by something of this nature yet,
when people insist on having the stuff
and are willing to pay for it surely it
will be admitted that the distribution
of such profits among the people as a
whole, forming part of the provincial
revenue, is better than having it con-
fined to a few hotelmen.

As a restrictive measure I feel that
it works satisfactorily. The trouble
to which people have to go to get the
liquor; the fact that a record is kept
of the amounts they buy; the knowledge
that the amount they may have is
limited; the fact that licenses are
issued only to those who come within
the provisions of the Act—all these
things tend to limit the amount
bought and consumed, and I feel sure
that it may be considered among the
safest measures for the curtail of the

HAVE YOU SEEN THIS ONE?

Not for half a dozen years has such
famous old literary curiosity, a com-
pilation from the works of thirty-
eight American and English authors,
made up by some painstaking search-
er, been on its rounds. There is an
epidemic of re-publication under way,
however, and the The Washington
Newspaper gleams this really ex-
cellent poem from an exchange:

Why all this toil for triumphs of an
hour?—Young.
Life's short summer, man a flower.
—Dr. Johnson.
By turns we catch the vital breath
and die.—Popé.
The cradle and the tomb alas, so
nigh!—Prior.
To be is better far than not to be—
Sewell.

Though all men's lives may seem a
tragedy.—Spenser.

But light cares spread when mighty
griefs are dumb.—Daniel.

The bottom is but shallow whence
they come.—Sir Walter Scott.

Your fail is but the common fate
of all.—Longfellow.

Unmingled joys to no man here
befall.—Southwell.

Nature to each allots its proper
sphere.—Cosgrave.

Fortune makes folly her peculiar
care.—Churchill.

Custom does not often reason over-
rule.—Rochester.

And throw cruel sunshine on a fool.—
Armstrong.

Live well, how long or short permit
to heaven.—Milton.

They who forgive most shall be
most forgiven.—Bailey.

Sin may be clasped so close we can-
not see its face.—Trench.

Vile intercourse where virtue has
no place.—Nomraville.

Then keep each passion down how-
ever dear.—Thomson.

Thou pendulim betwixt a smile and
tear.—Byron.

Her sensual snares let faithless
pleasures lay.—Smollett.

With craft and skill to ruin and
betray.—Crabbe.

Son not too high to fall, but stoop
to rise.—Massinger.

We masters grow of all that we
despise.—Cowley.

Oh, then renounce that impious
self-stem.—Beattie.

Riches have wings, and grandeur
is a dream.—Cowper.

Think not ambition wise because
'tis brave.—Sir William Davenant.

The paths of glory lead but to the
grave.—Gray.

What is ambition? 'Tis a glorious
cheat.—Wills.

Only destruction to the brave and
great.—Addison.

What's all the gaudy glitter of a
crown?—Dryden.

The ways of bliss lie not on beds
of down.—Francis Quarles.

How long we live not years but ac-
tions tell.—Watkins.

That man lives twice who lives the
first life well.—Herriet.

Make then while yet you may, your
God your friend.—William Mason.

Whom Christians worship yet not
comprehend.—Hill.

The trust that given guard and to
yourself be just.—Dana.

For live we can, yet die we
must.—Shakespeare.

use of liquor which could be devised
and which can be carried out.

As I stated before, prohibition of
importation and sale entirely would
be ideal, and would be desirable, if it
could be carried out. But as long as
human nature is constituted as it is,
and as long as people are human, it is
necessary to try to deal sanely with
matters of this kind and have a "nu-
tral evolution" rather than try to accom-
plish too much at one time. By
getting the people away from the free
use; by eliminating it from use at
public functions; by having our boys
grow up without constant temptation
before them; by making it a little
more complicated to get it at all; in
fact, by weaning people away from
the general use of it by these restric-
tive measures, will eventually impress
people with the folly of using the
stuff at all except as medicine, and
I would not be surprised to see the
day, not many years hence, when the

general use—Stettler Independent.

Labor Reductions On Automobile Repairs

We are now operating our repair shop on the Flat Rate Plan. By
this plan the automobile owner knows what the job is going to cost
before the work is commenced. The following are a few prices on
Chevrolet repairs:

Overhaul Motor \$3.00

Overhaul Axle and Propeller Shaft \$2.50

Overhaul Clutch and Universal \$2.50

Grind Valves and Clean Carburetor \$5.50

Rebuild Steering Knuckles and Plain Arms \$4.50

Reline and Adjust Brakes (per set) \$3.00

Rebuild Engine and Connecting Rod Bearings \$7.00

Clean Carburetor \$1.00

Reline Ignition \$1.00

I believe the British Columbia system is the best yet devised to accom-
plish the results desired, and to deal
most sanely with conditions as they
exist at the present time.

Yours very truly

Louis J. Ball.

The above letter was written for
private information, but in reply to
our letter asking that he allow it to
be published, Mr. Ball supplements
his opinion of the control system by
stating that he does not agree with
"licenses" to clubs for it seems im-
possible to limit this to bona fide
clubs. He concludes as follows—"My
opinion would be to discourage the
idea of 'club' licensed but might ap-
prove of beer and light wines with
meals. Hard liquor should be restricted
to Government dispensaries and
should be made fairly expensive so
as to discourage as far as possible its
general use."—Stettler Independent.

GETTING WISED UP

Some of the Alberta magistrates
are at last taking precautions against
issuing warrants without informants
producing sufficient evidence to justify
it. There is reason to believe
that a large percentage of the
warrants demanded nowadays are un-
called for and not in the best interests
of the peace.

Who ran through the town with
his trousers on fire;

He went to the doctor's and fainted
with fright,

When the doc informed him his
end was in sight.

THE BLAIRMORE ENTERPRISE. THURSDAY, OCTOBER 11, 1923.

This famous household cleaner and disinfectant is now made in *Crystal Flakes* instead of powder. It is the best household lye on the market. Use it for cleaning and bleaching, sinks, closets, drains, etc.; destroying vermin; softening water; making soap; cleaning floors, greasy pots and pans, etc.; removing paint, etc.

Avoid inferior and dangerous substitutes. Get the genuine article in cans as reproduced below;

WORLD HAPPENINGS BRIEFLY TOLD

Vancouver port has already doubled last year's grain handling.

King Alfonso has signed a decree abolishing the jury system in trials in Spain.

Eighty per cent of the harvesters who came here from Great Britain will remain in Western Canada, Canadian National Railway officials estimate.

Loss to the Japanese may be the earthquake is estimated at 100,000,000 dollars (\$50,000,000) by Admiral Taka-Sube, Minister of the Navy.

Warning to unemployed not to flock to the coast in search of work was issued by D. McRiven, Deputy Minister of Labor.

For twenty years a missionary to Japan for the Methodist Church, and a graduate of McGill class, 1894, Miss Margaret Craig, 51, died at Montreal, Oct. 1.

Oct. 2 marked the one hundred and sixtieth anniversary of the meeting on October 2, 1755, at Halifax, of the first popular assembly in British North America.

An official dispatch to the Japanese embassy, Washington, places the number of known dead in the earthquake zone at 102,000; the injured at 125,000, and the missing at 235,000.

By a decree of the Minister of the Interior the sale of Simplicities, the German comic newspaper, has been forbidden in France, and the police have received orders to seize copies already in circulation.

The islands of Imbros and Tenedos, at the entrance to the Dardanelles, were handed over by Greece to the Turkish authorities. These islands comprise the last portion of Turkish territory occupied by Greece which had to be returned to Turkey in conformity with the Lausanne peace treaty.

WELL-MERITED SUCCESS

A distinguished citizen, honored politically and professionally, Dr. V. Y. Piero, whose picture appears above, made a success few have equaled. His pure herbal remedies which have stood the test for fifty years are still among the "best sellers." Dr. Piero's Golden Medical Discovery is a blood medicine and stomach alterative. It clears the skin, beautifies it, increases the blood supply and the circulation, and plumples and cures vanity, quinsy, etc. It is known in the trade that good blood is beneath both. For your blood to be good, your stomach must be in condition, your liver active. This Discovery of Doctor Piero's puts you in fine condition, with all the organs well. Ask your doctor for Doctor Piero's Golden Medical Discovery, in tablet or liquid form, or send 10 cents for trial package of tablets to Dr. Piero's Laboratory in Bridgeburg, Ontario.

History of Electric Light

World-Wide Illuminant Made Possible By Years of Research

"History of Electric Light" is the title of a pamphlet just issued by the Smithsonian Institution dealing with a subject of almost universal interest. Many of the inventions described in it are now exhibited in the United States National Museum. In the division of general and mechanical technology and the numerous illustrations are largely taken from photographs of these. At the present time there are about 350,000 incandescent, about 200,000 magnetic, lamps in use in the United States alone and about an equal number of incandescent lamps in use in other countries. This world-wide use of electricity as an illuminant was made possible by patient research and experimentation through a period of one hundred and twenty-three years by many men of many nationalities, each approaching the problem from his individual viewpoint, and each with widely differing aims to be accomplished by its solution—the scientist solely wishing to demonstrate the existence of certain physical laws, the practical electrician taking up the work of the scientist and applying it to everyday uses such as the lighting of streets and houses. The successive steps in the development of the present well-known forms of the incandescent electric light are clearly and interestingly presented in this pamphlet.

Old Folks Need A Mild Bowel Tonic

Constipation Best Overcome By the
Occasional Use of Dr. Hamilton's
Pills

Because Active, Yet Very Mild, Old
Folks Prefer Dr. Hamilton's
Pills

Thousands of people, young and old, stop habitual constipation by using Dr. Hamilton's Pills. This mild yet active medicine is noted for its propensities in restoring the bowels to a condition where they will perform their useful function at a certain time.

You'll improve your health, you'll eat more, sleep well and look better. If you regulate your system with Dr. Hamilton's Pills. 25¢ at all dealers.

To Manufacture Insulin

A building has been acquired by the University of Toronto to be entirely devoted to the manufacture of insulin, the product discovered by Dr. Banting for the cure of diabetes. This will be the only factory in Canada to manufacture the curative fluid in commercial quantities and although it is manufactured in the United States, Great Britain and Denmark, the Canadian product will be sold throughout the world.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds, the Baby against Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that when the baby is well, the mother is well and good order that colds will not exist; that the health of the little one will be good and that he will thrive well and happy and good order.

These tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. William's Medicine Co., Brockville, Ont.

Electric Lantern

A new portable electric light that has been patented is shown in the old-time oil lantern. The battery is carried in the bottom, in place of the oil lamp, and the lamp replaces the usual wick being protected by a heavy glass globe. Always ready for use, it will burn steadily for a long time. When the battery is exhausted, it can be replaced in less time than it takes to fill the old-time lantern. It has the added advantage of being safer and clean, and it cannot be blown out.

Ship Poultry to Eastern Canada

Improvements that warrant much optimism for future business, have been made in the shipping of poultry to Eastern Canada, according to a statement of J. H. Hare, Alberta Provincial Poultry Commissioner. Eastern dealers have favorably commented upon recent shipments as having been satisfactory.

Coal Output Increases

According to figures provided by the preliminary report on mineral production in Canada for the first six months of 1923, Alberta has produced in those six months a total of 3,312,993 tons of coal, compared with 2,358,100 in the same period of 1922.

Did you ever see a fellow walking around on his uppers while waiting for a dead man's shoes.

Minard's Liniment Relieves Colds

Colds Stopped In Ten Minutes

There is a new cold remedy that is pleasant—it fits the nose, throat and lungs with a healing balm from the pine woods, and utilizes that marvelous antiseptic of the Gum Tree of Australia.

The remedy is CATARRHOZONE.

It is equal for colds, coughs or catarrh.

Composed of medicinal pine essences—a remedy of nature, that's CATARRHOZONE is, and you'll find it mighty quick to act and certain to stop your cold.

Don't dope your stomach with cough medicine use CATARRHOZONE, which is selected from the finest plants quickly. Two months' treatment guaranteed, costs \$1.00; small (trial) size 50¢. Sold by druggists everywhere. By mail from The Catarrho Zone Co., Montreal.

Bananas As Food

Form Complete Diet of One-Fourth of Human Race

America should have some bananas. Because if she hasn't she is not getting her share of one of the most important foods in the world. The banana is the most prolific food plant known and forms the complete diet of one-fourth of the human race, says the Milwaukee Journal.

It is a native of the East Indies, but is cultivated in all tropical countries. It requires very little attention from the natives, and is almost a weed in the rapidity of its increase. Once a plant is sown, all the leaves of its support are perished, the control of the main stalks which the plant shoots out. The plants mature in a few months, and produce a single bunch of fruit each.

Bananas do not grow on the plant as they hang in the store, but with small end of the fruit pointing upward, toward the sun. A standard size bunch has nine "hands," with from 10 to 15 bananas to a "hand."

Only one or two varieties of bananas are exported large distances from the tropical plantations. About sixty species exist, some with as large as a good sized rolling pin. The most delicious varieties never reach America because of their rapid deterioration.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Too Much Entertainment

Dominion Premiers Cannot Accept All Hollywood Shows

With great tact the Dominion premiers, who are in London for the Imperial Conference are understood to have made known the fact that was impossible for them to keep on working during the conference if they accepted all the hospitality that has been designed for them and are continually eating.

In consequence of this gentle hint, the prospective hosts of the visiting premiers do not expect them to attend more than a small percentage of the banquets which they have arranged and have informed that the menus at these will be made less formidable than at first intended.

The Daily Mail, applauding this decision, recalls the Imperial Conference of 1907 when the late Sir Wilfrid Laurier, the late Premier Botha of South Africa, and the late Dr. Leader Star Jameson, Premier of Cape Colony, were ill simultaneously through over-banqueting while attending the conference.

The Man With Asthma almost longs for death to end his suffering. He sees ahead only years of endless torment with a host of rest which are helpless against the disease, a curse, a fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know the complete relief it can give. Let him but use it faithfully and he will find his asthma a thing of the past.

Platinum Found With Other Metals

Platinum is found in the same metals along with other metals including gold and chrome-iron. Occasionally it is discovered in the form of nuggets, which are naturally extremely valuable. A 25-pound nugget of platinum would at the present time be worth over \$30,000.

Coal Output Increases

According to figures provided by the preliminary report on mineral production in Canada for the first six months of 1923, Alberta has produced in those six months a total of 3,312,993 tons of coal, compared with 2,358,100 in the same period of 1922.

Distribute Handsome Profits

Hearst Music Publishers Are Making Remarkable Progress

The Hearst Music Publishers, Limited, announced in Winnipeg last week that options had been secured and plans were in hand for the construction of their own head office building in a prominent downtown location in that city. This information is of interest to the public, as well as to the numerous shareholders in that company throughout Manitoba, as marking the remarkable progress being made by this company.

This company, formed by Manitoba men, has in two years created a congenital organization in the sale of musical publications, popular which it produces and publishes, and has made and distributed profits which cannot be highly gratifying to the fortunate individuals who participated in its initial organization.

The stock of this company has recently been taken off the market, and none is now available. The last dividend declared by the company, for distribution about October 15, is of 10 per cent, cash, making total distribution to shareholders during 1923 of 50 per cent in cash and 45 per cent in stock. This has worked out to give each shareholder who possessed a paid-up share of \$100 on December 31 last, \$8.25 in dividends during the year, besides an addition of 45 per cent to his stock.

The company has distributed many of its publications very large editions. For some time the main branch offices established in Toronto and New York, and is now opening branches in Chicago, Philadelphia, Boston, Pittsburgh, St. Louis and San Francisco, in Canada, in Montreal and Vancouver, in Canada, and in Melbourne, Australia. The company also distributes its songs in Great Britain, through the old established firm of B. Feldman & Co., London.

Joseph X. Hearst, of Winnipeg, is internationally known as a song writer, is President and Managing Director of the company. John W. Wilton, Esq., M.P.P. for St. James, and a prominent Winnipeg barrister, is Vice-President; and the other officers are: Gordon A. MacLean, C. of Winnifield, Secretary and John Anderson, Treasurer. The principal music directors in addition to the above include Andrew Lloyd and Carl Fink, of Winnipeg; W. H. Gaithers, of Hartney, Manitoba; William Evans, of Killarney, Man., and Everett Evans, of New York, N.Y.

Holloway's Corn Remover takes the corn out by the roots. Try it and prove it.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulence, Wind, Colic and other intestinal complaints, resulting therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates. The genuine bears signature of

Chas. H. Fletcher.

Canada Exports Autos

British Empire Is Best Market For Export Cars

A growth in the automobile export trade from Canada that is regarded as amazing is indicated in trade figures of the industry list made public for the ten months ended with August of this year.

Canada in point of fact, now leads all other British country in its export of cars. This is attributed in large measure to the location here of branch factories of United States concerns which they avail themselves of preferential tariffs to which Canada is partly. The total exportation in twelve months ended with August was \$16,542, while in twelve months ended in June the United States exported 101,000 cars. The Canadian export was fifty per cent over August of last year.

The total export in the month was 5,613, compared with 2,849 in August last, of this number 568 cars and parts valued at \$22,081 went to the States, 2,161 valued at \$74,000 to Australia, 924 valued at \$362,554 to New Zealand and \$90 to South Africa.

The British Empire is the best market for Canadian cars and the United States for auto parts.

Very Kind of Her

Lady—You can get work beating carpets two doors from here—they're cleaning houses.

OLD CHUM
The Tobacco of Quality
Manufactured by Imperial Tobacco Company of Canada Limited

The Aim of Life

The great thing is to tackle life in a spirit of adventure. The main object is not to win; it is to live. Winning or losing is an issue beyond human control. Effort is not. Nothing is easier than to identify the life in which effort and aspiration of some sort are present. They light it up as the sun a landscape. Bread-winning is only the sum of life. The soul of life begins in, whatever, plus quantity of voluntary effort, is added over and above the sheer necessity of bread-winning—Boston Globe.

Externally or internally, it is Good—Externally applied by brisk rubbing. Dr. Thomas' Electric Oil removes the pores and penetrates the skin, taking out the dirt of the bronchial and immediately affording relief. Administered internally, it will still the irritation in the bronchial which induces the coughing, with relief of the bronchial tubes and respiratory organs.

Try it and be convinced.

Our Ancestors

Every human being on the face of the globe is compelled by the demands of Nature to have two parents, four grandparents, eight great-grandparents, sixteen great-great-grandparents, 32 in the fourth generation back, 64 in the fifth, 128 in the sixth, 256 in the twelfth, and nearly 1,072,000,000 in the thirtieth. The whole number of one's ancestors in the fifth generation is 5,362,794,314,24,046—multitude which no man can number.

For World Peace

Progress toward world peace is made by gradually adjusting the causes of international discord, by edging in here and there by cultivating the habit of national reasonableness and good will. It is not made by any magic such as a league covenant which fails to pieces at the first strain—Kansas City Star.

Don't waste time reasoning with an angry man.

New Branch Lines

Projected Construction of Lines in Lethbridge and Cardston Districts

President Beatty, of the Canadian Pacific Railway, at a Board of Trade function in his honor held at Lethbridge, made the definite announcement that the projected Kitch-Little Bow branch would be constructed in 1924. This branch will traverse the centre of the Lethbridge Northern irrigation district, into which ditches the water is being turned, following the completion of repairs to the flood damage of last June.

Mr. Beatty also promised a Cardston delegation consideration of a portion of a line east and west through that town to serve the extreme southwestern corner of the province.

The estimated weight of the earth is 5,000,000,000,000,000 tons.

EAT BREAD
BY ITSELF
or with anything at all!
Bread is your best food—Eat more of it.

There is no food on earth so tempting when it's really pure and wholesome like

MOTHER'S BREAD

—the loaf that's all Bread.

Since starting the use of coke as fuel for baking we are kept busy supplying demand for our Bread.

Local and General Items

For funeral bowers phone 212, Crows' Nest Pass Undertaking Co.

We don't object to people living beyond their means if they don't live beyond our means.

A penny saved by a miser means a dollar to be burned by his heirs later on.

A Grand Forks grower has presented the newspaper editor with a pod of beans 20 inches long and holding 20 beans.

Rev. P. J. N. Cosman arrived on Sunday morning last from Nova Scotia to resume his services as pastor of St. Anne's Catholic church here.

James Fairhurst, of Coleman, has been appointed returning officer for the Rocky Mountain constituency for the forthcoming referendum.

Grand Forks butchers are after the town council to impose a fifty-dollar license each six months on ranchers who peddle meat in that town.

Chestnut was hit in the back of the neck by a piece of timber while at work in the mine on Monday morning, but not seriously injured.

The members of Crowview Rebekah Lodge will hold a dance at the opera house on the night of October 31st. Masons' "Big Five" orchestra will furnish music.

A trip of about twenty cars got away on the rotary dump at Greenhill on Friday last, doing considerable damage and causing about three days' cessation of work.

Thanksgiving this year will be celebrated on November the 12th, the Monday following Armistice Day. Both Armistice and Thanksgiving will be celebrated on the 12th.

A grand masquerade ball will be given in the Oddfellows' hall at Bellevue on the night of Hallowe'en, October 31st, under auspices of Armistice Encampment No. 17, I.O.O.F.

Tom Richardson, ex-member of the British parliament, is to address a meeting at Coleman tonight in the interests of prohibition. Before leaving the district he will address meetings at Bellevue, Hillcrest and Blairmore.

A number of Calgary agents of magazines and newspapers carrying football competitions have been convicted and fined on a charge of advertising and displaying illegal literature.

The marriage of Miss Elfreda Dorothy Hamilton, only daughter of Mrs. Bertha Hamilton, of Bellevue and Roy E. Fetter, formerly of Lethbridge, took place at Los Angeles, California, on September the 8th.

Autumn ceremonial of Omar Khayyam Temple No. 141, D.O.K.K., will be held in the Knights of Pythias hall, Coleman, Alta., Wednesday evening, Oct. 17th, at 8 p.m. Volaties bring your fez, your smile, and your glad hand; Tyrus leave at home your grouch, your hammer and your temper. In any case the Royal Vizier says fail him not at the time and place.

We understand that the old red school has been purchased by the Blairmore Tuxia Group and will be moved to a new location to be equipped to serve in Tuxia and Trail Ranger work. It will be quite a relief to the school grounds to get rid of this unsightly structure, which has long since served its usefulness as a school and does not add much of beauty to the appearance of our central educational institution.

A general convention of bootleggers was held in Blairmore on Tuesday evening last.

Matthew Alger Murphy, of Cowley, has been appointed a commissioner for oaths.

J. A. Smith, provincial high school inspector is in the Pass this week on his regular tour of inspection.

The Canadian National Railways will build a hotel at Vancouver, costing between \$1,000,000 and \$1,500,000.

Mr. and Mrs. F. Thell and two children and Miss Tilney, of Lethbridge, were in town in the early part of the week.

Representatives of the Royal Bank of Canada were in town last week end, looking over Blairmore for a site for a branch of that institution.

The Ukrainian National Building Company, Limited, has been incorporated with a capitalization of ten thousand dollars and head office in Calgary.

Chestnut was hit in the back of the neck by a piece of timber while at work in the mine on Monday morning, but not seriously injured.

Blairmore's noted kicker, who felt

so confident that the editor of this paper was correspondent for the Lethbridge Herald, has got another guess coming.

Blairmore Oddfellows will hold their annual dance in the opera house on the night of Wednesday, November the 14th. Keep that date open for a good time.

A dance will be given in the Lyric hall at Beaver Mines on the night of Friday, November 16th, at which Masons' "Big Five" orchestra will furnish music.

Evan Morgan met with a slight accident at the mine on Monday. A falling lump of coal hit him on the knee. He managed to walk to the washhouse and was conveyed from there to his home, where he will likely rest for a week or so.

A short session of the town council was held on Monday night, at which it was decided to go ahead with the building of a new bridge crossing the Old Man River at the foot of Sixth Avenue. Two cement piers are to be installed to carry a large span.

We referred last week to the Bellevue Arena, Limited, as being capitalized at \$15,000. Such was an error. For the capitalization is \$20,000, and the arena has been incorporated under the Companies Act of the Province of Alberta as a limited company.

Assembling of grain exhibits from farms of this province, who intend to enter at the international hay and grain show in Chicago in December, will commence shortly. There will be three assembling points, at the schools of agriculture at Claresholm, and Olds, and at the University at Edmonton. From these points the provincial department of agriculture is arranging to pay the freight on exhibits to Chicago.

Following the resignation of "Sandip" Watson from the Home Bank management at Fernie, Mr. Bird of the local branch has been called upon to look after the interests of the Home Bank at Fernie. Mr. Watson has assumed the management of the new Royal Bank branch at Fernie.

One of the good citizens of Coleman came to town on Monday evening and so felt that we had many Victoria Streets instead of one to stagger over. As navigation was difficult for himself and not at all pleasant for those he had to collide with, he was run in for the night. The town's coffers were enriched a few dollars on Tuesday morning.

WHY YOUR TROUSERS

should be made by us to measure. Ill-fitting trousers spoil the entire effect of a suit no matter whether the coat and vest are all right. Besides, there's your comfort to consider. Waist too tight, seat too loose, seat the same, pinching crotch, ungraceful legs, awkward draping give you a sorry appearance. Try us on your next trousers and see the vast difference tailoring makes.

J. E. UPTON.

Tailor to the People of The Crows' Nest Pass
